

### Description

After Madelyn&#39;s death was reported to the jurisdictional vital records office via an A04 message from the EHR, a nurse at Llewellyn Hospital realized that Madelyn&#39;s first name had been entered incorrectly into the hospital&#39;s EHR as &quot;Madeline.&quot; The nurse updates the decedent&#39;s first name in the medical record with the correct spelling. The updated record for Madelyn Smith is transmitted via an ADT^A08 message from the EHR to the jurisdictional vital records office.

### Comments

No Comments

### Pre-condition

A04-Report message is sent before the A08-Revise message.

### Post-Condition

No PostCondition

### Test Objectives

**This test case examines the ability of an EHR to create an ADT A08 message for revising of relevant clinical information to the Electronic Death Registration System (EDRS).**

**Support for revised patient name.**
